GENERAL INFORMATION

Šiaulių Bankas AB was registered as a public company in the Enterprise Register of the Republic of Lithuania on 4 February 1992. The Bank is licensed by the Bank of Lithuania to perform all banking operations provided for in the Law on Banks of the Republic of Lithuania and the Charter of the Bank. In this document, Šiaulių Bankas AB is referred to as the Bank, Šiaulių Bankas AB and its subsidiaries (described in more detail in Note 2) - the Group.

The Head Office of the Bank is located in Šiauliai, Tilžės str. 149, LT-76348. At the end of the reporting period the Bank had 56 customer service outlets (31 December 2022: 56 outlets). As at 30 September 2023 the Bank had 866 employees (31 December 2022: 817). As at 30 September 2023 the Group had 957 employees (31 December 2022: 908 employees).

The Bank accepts deposits, issues loans, makes money transfers and documentary settlements, exchanges currencies for its clients, issues and processes debit and credit cards, is engaged in trade finance and is investing and trading in securities, as well as performs other activities set forth in the Law on Banks of the Republic of Lithuania and the Charter of the Bank.

The Bank's shares are listed on the Baltic Main List of the Nasdaq Stock Exchange.

This condensed interim financial information for the nine months period ended 30 September 2023 has been prepared in accordance with IAS 34, "Interim Financial Reporting" as adopted by the EU. The condensed interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2022, which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by EU. Except for the points described below, all the accounting policies applied in the preparation of this condensed interim financial information are consistent with those of the annual financial statements of the Bank for the year ended 31 December 2022.

Income tax

Income tax in the interim periods is accrued using the tax rate that would be applicable to expected total annual earnings.

The Republic of Lithuania has introduced a new solidarity contribution (or “windfall” tax) in respect of credit institutions operating in Lithuania, effective as of 16 May 2023 and is applied on the surplus of net interest income received in 2023 and 2024 from activities of the credit institutions operating in Lithuania. The Bank and the Group included amount of windfall tax in line ‘Income tax expense’ of income statement.

New and amended standards, and interpretations

The Bank‘s management do not believe that except for new and adopted for the first time standards, described below, the newly published standards, amendments and interpretations that are mandatory for the Group’s and Bank‘s reporting periods beginning on or after 1 January 2023 will have a material impact on the Group’s and Bank‘s financial statements, also there are no new standards, amendments and interpretations that are mandatory for the Group and the Bank with effect from 2023, and that would have a material impact on the Group’s and the Bank‘s financial information.

On 1 January 2023 Group and Bank’s subsidiary UAB SB draudimas (hereinafter – the Company) applied IFRS 17 Insurance contracts and IFRS 9 Financial instruments for the first time. Application of these standards introduced significant accounting changes for insurance and reinsurance contracts and financial instruments.

IFRS 17 Insurance contracts is applicable for annual periods starting on or after 1 January 2023. IFRS 17 supersedes IFRS 4 according to which companies had the possibility to use previous practice for accounting of insurance contracts. Due to this reason investors had difficulties in comparing financial operating results of similar insurance entities. IFRS 17 is a standard based on general principles setting accounting requirements for all types of insurance contracts including reinsurance contracts held by an insurer. The Group and the Company has not applied this standard earlier.

A contract is considered an insurance contract only if it the insurer accepts significant insurance risk taking into account future cash inflows (evaluated by probability) from premiums and disbursements due to fulfilment of obligations/ in case of death, terminal value and administrative costs discounted using interest rate curve at the inception date. The Group and the Company decided to use EIOPA risk free rate yield curve for significance testing. In evaluating the significance of insurance risk additional amounts are used which would be payable in economic base scenarios. Two scenarios are created - one when the insured event does not occur, another when the insured event does occur with probability of 100 %. The insured event will cause losses for the insurer if the present value of future cash outflows according to second scenario is larger than in first scenario. The Group and the Company chooses to use 10 % limit for significance testing, that would mean if losses are generated because of the insured event and additional amounts which would be payable according to scenarios which are based on second scenario are by 10 % larger than in first scenario, the Group considers the insurance risk to be significant. The significance of insurance risk is assessed in general on a contract-by-contract basis. A contract that meets the definition of an insurance contract remains an insurance contract until all rights and obligations expire.

GENERAL INFORMATION (CONTINUED)

New and amended standards, and interpretations (continued)

IFRS 17 requires that the Group and the Company groups its portfolio according to product lines which are related with similar risk. For estimation purposes insurance contracts are aggregated into groups of insurance contracts. The purpose of such grouping is to ensure that profit would be recognised over time proportionally to the insurance service provided while losses are recognised immediately when a group and company assesses that contract concluded is generating loss. Setting off profit and loss between different insurance contracts groups is not allowed. Insurance contracts are aggregated into insurance contracts groups based on such three levels:

- Portfolio – similar risk contracts managed together.
- Profitability – contracts of same profitability.
- Cohort – contracts which date of entry into force differ by more than one year.

Portfolio cohort period beginning is January 1st of each calendar year and contracts of each portfolio are accounted using a one year interval principle (annual cohort). It means that IFRS 17 introduce more detailed aggregation level than in IFRS 4. Insurance contracts are aggregated into homogeneous risk groups.

Cash flows are within the boundary of an insurance contract if they arise from substantive rights and obligations that exist during the reporting period in which the Group can compel the policyholder to pay the premiums or in which the Group has a substantive obligation to provide the policyholder with insurance contract services.

Contractual service margin (hereinafter– CSM) of insurance contracts group reflects unearned profit which the Group and the Company will recognise while providing services according to such contracts. On initial recognition the Group and the Company treats a group of insurance contracts as onerous if, after adding the fulfilment cashflows attributable to the contract, all insurance contract acquisition cashflows incurred in the past and all cashflows arising from contract before initial recognition, the net result is a cash outflow.

The carrying value of a group of insurance contracts at end of each reporting period is calculated by adding the liability for remaining coverage and the liability for incurred claims. Estimates of future cashflows are recalculated at each reporting date using updated data. The contractual service margin at the reporting date demonstrates the profit of a group of insurance contracts which has not yet been recognised as it is related to future service, which will be provided under group contracts.

According to IFRS 17 clause B119 the CSM for a group of insurance contracts is recognised as profit or loss of each period to reflect the insurance contract services provided under the group of insurance contracts in that period. The amount allocated to a certain period is determined by identifying coverage units within the portfolio. The number of coverage units within a group of insurance contracts is the quantity of insurance contracts services provided by the contracts in the group, determined according by considering for each contract the quantity of the benefits provided under a contract and its expected coverage period.

If group of contracts is or becomes loss generating the Group and the Company recognises loss immediately.

The Group and the Company decided to apply bottom-up approach based on EIOPA risk-free rate (RFR) curve. Looking at the Group's and the Company's portfolio, the majority of the portfolio (in term of number of policies) is perceived to be liquid (Unit-Linked) whereas the other products might be seen as illiquid. It was decided to use Solvency II RFR without volatility adjustment for Unit-linked products and for other products Solvency II RFR with volatility adjustment.

Insurance acquisition cashflows are a separate cost category which is taken into account to determine future cashflows related to the contract. Such cashflows include cashflows arising from insurance contracts group acquisition, distribution and commencement costs directly attributable to portfolio of insurance contracts to which that group belongs. Applying General measurement model (hereinafter – GMM) and Variable fee approach (hereinafter – VFA) methods future expected attributable costs affect the amount of CSM..

IFRS 17 requires entities to depict risk inherent in insurance contracts by including risk adjustment for non-financial risk correction in the measurement of those contracts. The risk adjustment for non-financial risk directly measures the non-financial risk in the contract. Risk adjustment for non-financial risk is defined as compensation which the entity requires to assume uncertainty regarding amount and timing of cashflows arising from non-financial risk and is calculated separately from other cashflows. The Group and the Company chose to calculate risk adjustment based on Solvency II capital requirement before diversification. Assumption is made that all Solvency II non-financial risk (mortality, longevity, disability, validity, outflows and catastrophe risk) is distributed by normal distribution. Due to low quantitative impact assumption for life models can be made that catastrophe risk can be approximately assessed under normal distribution. Calculation of the risk adjustment is based on determining risks at the reference date (t=0) and forecasting them based on a run-off pattern appropriate for each non-financial risk based on coverage units. According to clause 81 in IFRS 17 requirements the Group and the Company decided not to disaggregate the change in the risk adjustment for non-financial risk between insurance services result and insurance financial income and expenses. Entire change in risk adjustment for non-financial risk will be included as part of the insurance service result.

GENERAL INFORMATION (CONTINUED)

New and amended standards, and interpretations (continued)

Insurance financial income and expenses include the time value of money (discounting) and changes in financial risks related to insurance contracts groups. The Group and the Company can select to distribute insurance financial income and expenses between profit (loss) and other comprehensive income (OCI), but decided not to apply the other comprehensive income approach.

The Group and the Company has applied all three possible methods for transition to new standard:

Product	**Transition method**	**Model applied**
Endowment insurance (KG)	Fair value method	GMM
Endowment insurance for survival (KI)	Fair value method	GMM
Hybrid (GD, GP)	For contracts concluded till 2016 – Fair value method. For contracts concluded after 2016 – Full retrospective approach	VFA
Studies insurance (SD)	Fair value method	GMM
Pension insurance (PD)	Fair value method	GMM
Pension annuities insurance (PA)	Fair value method	GMM

Investment insurance (UG,PP,IP)	For contracts concluded till 2008 – Fair value method. For contracts concluded between 2008-2015 – Modified retrospective approach. For contracts concluded after 2016 – Full retrospective approach	VFA
Children safe future insurance (VA)	For contracts concluded till 2008 – Fair value method. For contracts concluded between 2008-2015 – Modified retrospective approach. For contracts concluded after 2016 – Full retrospective approach	VFA
Children future programme (VP)	Full retrospective approach	VFA
Life risk insurance (GG)	Fair value method	GMM
Life risk insurance with decreasing insurance amount (RG)	For contracts concluded till 2016 m. – Fair value method. For contracts concluded after 2016 – Full retrospective approach	GMM
„I'm safe" insurance (GN)	Fair value method	GMM
Life risk „Safe family" insurance (SB)	Full retrospective approach	GMM
Mortgage life insurance (BK)	Full retrospective approach	GMM

For insurance contracts concluded until new standard application date and about which the Group and the Company has insufficient data to apply full or modified retrospective approach or they constitute insignificant part of total portfolio fair value method was applied. For insurance contracts concluded until new standard application date and for which the Group and the Company has insufficiently detailed data to apply fully retrospective approach modified retrospective approach was applied. For remaining insurance contracts full retrospective approach was applied.

The Group and the Company has evaluated impact on financial statements of initial IFRS 17 application. According to assessments made the Group's and the Company's equity correction is increase of EUR 1,223 thousand as at 1 January 2023.

Critical accounting estimates and judgements

The preparation of financial statements in conformity with IFRS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of current event and actions, actual results ultimately may differ from those estimates. In preparing these condensed interim financial statements, the significant judgements made in applying Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the financial statements as at and for the year ended 31 December 2022, except for judgements and estimations used for calculation of impairment, which were revised to reflect the most recent economic forecasts. These judgements and estimates are described in more detail in Notes 1 and 10. It should be noted that at the moment of producing the financial reports there was no full clarity regarding further development scenarios of Russia invasion to Ukraine and uncertainties regarding further global, country and sector development trends existed, therefore there is a significant probability that actual results may deviate from the estimated. These interim financial statements also include specific estimates and judgements applied for calculation of temporary solidarity contribution which calculation and payment order were set in provisions of Law on temporary solidarity contribution of Republic of Lithuania adopted in 2nd quarter of 2023. According to clarifications received from tax authorities regarding calculation of this contribution, amount of temporary solidarity contribution accounted for 2nd quarter of 2023 by the Bank is equal to EUR 2.2 million. Although EUR 2.7 million of solidarity contribution will be declared and paid for 3rd quarter of 2023, due to annual recalculation of the contribution no additional accruals were accounted for 3rd quarter of 2023 however amounts accounted could change if tax authorities clarifications would be amended or forecasted results used in calculation would change.

These financial statements combine the consolidated financial statements for the Group and stand-alone financial statements of the Bank. Such format of reporting was adopted to ensure consistency of presentation with the format prescribed by the Bank of Lithuania and applied for statutory reporting.

No significant amounts of the Group's and the Bank's income or expenses are of a substantial seasonal nature.

NOTE 1
LOANS TO CUSTOMERS AND FINANCE LEASE RECEIVABLES

Credit risk is defined as the risk for the Group to incur losses due to the Group's customers' failure to fulfil their financial obligations towards the Group. Credit exposures arise principally in lending activities and it is the most significant risk in the Group's banking activities. There is also credit risk in investment activities that arise from debt securities and in the Group's asset portfolio as well as in the off-balance sheet financial instruments, such as loan commitments, guarantees and letters of credit.

The Bank regularly reviews its credit risk management policies which include lending policies, credit risk limit control, other credit risk mitigation measures as well as the internal control and internal audit of credit risk management.

The Bank takes risks only in the fields, which are well known to it and where it has long-term experience, trying to avoid excessive risk in transactions that can have negative influence to the big portion of shareholders' equity but seeks the sufficient profitability which, in terms of increasing competition, would ensure the stable Bank's position in the market and would increase the Bank's value. In assessing exposure to credit risk, the Bank adheres to the principle of prudence.

The aim of the Bank's credit risk management policy is to ensure that the conflict between interests of staff or structural units is avoided. With respect to provision of credits to clients, the principle stating that profit should not be earned at the expense of excessive credit risk is observed.

Maximum exposure to credit risk before collateral held or other credit enhancements:

The Bank has provided loans as investment to securitization vehicle through Banks's subsidiary SB Modernizavimo Fondas UAB for financing multiapartment buildings renovation projects. Bank's investments in securitization are provided in several tranches to different investment layers bearing different risk levels. Part of investments made so far were made into layer bearing highest level of risk, therefore according to clauses in IFRS 9 applicable to contractually linked instruments, loans to SB Modernizavimo Fondas UAB are accounted at fair value through profit and loss and are disclosed in statement of financial position within line "Loans to customers". At initial recognition it was considered that fair value of these loans is equal to its acquisition value. During nine months period ended 30 September 2023 losses from fair value change of such loans of EUR 261 thousand were recognized.

NOTE 1

LOANS TO CUSTOMERS AND FINANCE LEASE RECEIVABLES (CONTINUED)

Loans are assigned to stages using the following principles (a deviation from these principles is allowed in the process of individual loan assement based on contract-specific circumstances if it would result in more precise assessment of the risk of the contract):

Stage 1 loans: loans with no increase in credit risk observed.

Stage 2 loans: loans with an increase in credit risk observed. Main reasons for determining an increase in credit risk are: deterioration of borrower's financial status from the initial (this criteria is not applicable to the low credit risk loans, i.e. loans that have internal borrower's financial status assessment grades "very good" or "good" or investment grade credit ratings by external credit rating agencies), payment delay of over 30 days, and other objective criteria showing an increase in credit risk.

Stage 3 loans: defaulted loans. Main reasons for determining a default are: payment delay of over 90 days, bankruptcy of the borrower, termination of the contract, start of the foreclosure procedures and other objective criteria.

As lending activities are oriented to Lithuanian market, the Bank and the Group held no significant direct loan positions in Russia, Belarus and Ukraine. Potential risk assessment for separate sectors has not demonstrated economic sectors for which risk would be increased. Due to potential increase in credit risk the Bank has individually assessed clients with loans and finance lease contracts which have medium or high dependency from countries mentioned above through supply or sales chains or through shareholders structure and if increase in risk was determined credit stages for certain clients were reduced.

6. SB Asset Management UAB (funds management activities).

As of 31 December 2022 the Bank owned the following directly controlled subsidiaries:

1. SB Draudimas UAB (life insurance activities),
2. SB Lizingas UAB (consumer financing activities),
3. Šiaulių Banko Lizingas UAB (lease activities),
4. Šiaulių Banko Turto Fondas UAB (real estate management activities),
5. SB Modernizavimo Fondas UAB (multiapartment buildings renovation financing activities),

As of 31 December 2022 the Bank owned the following indirectly controlled subsidiaries:

6. Šiaulių Banko Investicijų Valdymas UAB (investment management activities).

On 7 February 2023 new Šiaulių Bankas group company was established – SB Asset Management UAB, legal entity code: 306241274, registered office address Gynėjų str. 14, Vilnius, whose sole founder, owning 100 percent of the shares, is the Bank. SB Asset Management UAB was established to properly prepare for the implementation of the agreement signed on 22 November 2022 regarding the merger of AB “Invalda INVL” retail asset management and life insurance businesses with AB Šiaulių bankas, and which after the transaction closing date would take over the management business of pension funds and investment funds for its further development.

On April 5, 2022 the Bank established a special purpose entity - SB Modernizavimo Fondas UAB which started its activities on April 25, 2022 after respective agreements with investors were signed. Bank’s investment in share capital of SB Modernizavimo Fondas UAB is EUR 100 thousand. According to agreements with investors and provision in IFRS 10, Bank holds no control in SB Modernizavimo Fondas UAB therefore it is not consolidated in Group’s consolidated financial statements. According to clauses in IFRS 9 applicable to contractually linked instruments, investment in SB Modernizavimo Fondas UAB is accounted at fair value through profit and loss and is disclosed in statement of financial position within line "Investments in subsidiaries and associates". At initial recognition it was considered that fair value of this investment is equal to its acquisition value. Since initial recognition there were no circumstances due to which fair value of investment in SB Modernizavimo Fondas UAB would change significantly.

By implementing its strategic plan, the Bank optimizes the structure of its subsidiaries. During nine months period ended 30 September 2023 Bank’s indirectly controlled subsidiary Šiaulių Banko Investicijų Valdymas UAB was liquidated. Šiaulių Banko Lizingas UAB directly controlled by the Bank is under liquidation procedure.

NOTE 5
SIGNIFICANT INFORMATION ON CHANGES IN OTHER LIABILITIES ITEMS

Due to other banks and financial institutions

On 28th June 2023 the Bank has repaid a EUR 150 million loan borrowed under the ECB's TLTRO III programme. After this repayment outstanding borrowing on the balance sheet under third series of the targeted longer-term refinancing operations (TLTRO-III) program of the European Central Bank amounted to EUR 478 million as at 30 September 2023. On 29 September 2021 Bank has borrowed additional EUR 479 million via ECB's latest TLTRO III.9 operation. Loan maturity date is on 25 September 2024 with early repayment option started on 29 June 2022. The Bank has not used early repayment option. Interest rate on TLTRO III was -0.5% from June 2020 to June 2021 and for banks meeting the lending thresholds, the interest rate can be as low as -1%. The Bank has met the lending thresholds during first two quarters of 2022 therefore has included the bonus on the special interest period in its effective interest recognition. Based on an internal assessment, part of the inflow of economic benefits from TLTRO-III borrowing with negative effective interest rate, which may be justified as market rate, was recognised within the income statement line "Interest income". The remainder is a benefit of the below-market rate of interest and was recognised within the income statement line "Other income" as a support or compensation for the fulfilment of the required obligations. Since 14th September 2022 interest rates for TLTRO-III borrowings are positive, TLTRO-III positive interest recorded in 2023 and 2022 income statement line "Interest expenses". Securities with a carrying value of EUR 514,390 thousand were placed as a collateral for these borrowings.

Special and lending funds

The special funds consist of the funds from the mandatory social and health insurance funds. The special funds should be returned to the institutions which have placed them upon the first requirement of the latter. The increase in special and lending funds from EUR 14,184 thousand in the beginning of the year to EUR 11,147 thousand in the end of the reporting period is attributable to routine fluctuations in these funds.

NOTE 6
CAPITAL

As of 30 September 2023 and 31 December 2022 the Banks's share capital amounted to EUR 174,210,616.27, it comprised 600,726,263 ordinary registered shares with par value of EUR 0.29 each.

At 31 December 2020 European Bank for Reconstruction and Development (EBRD) possessed 26.02% of the authorised capital and votes of the Bank. On 22 December 2021 EBRD announced that it has agreed to sell an 18 % stake in Bank. EBRD has signed 3 separate agreements with Invalda INVL, an asset management group, Tesonet Global, (part of the Tesonet group of companies), and Willgrow, a holding company that owns Girteka Logistics, to sell stakes of 5.87%, 5.87% and 6.29% in Bank, respectively. Acquisitions of shares will take place through a series of transactions until June 2024 and in some cases might be subject to regulatory approvals. On 29 December 2021 Willgrow announced about acquisition of 5.71% of Bank's shares. On 31 May 2023 the second series of transactions was completed after which the shareholding held by Invalda INVL grew to almost 10.00%, Willgrow to 7.81%, and Tesonet Global - 3.91%. After these transactions as of 30 September 2023 EBRD possessed 14.00% of the authorised capital and votes of the Bank.

On 22 November the Bank and Invalda INVL signed an agreement to merge segments of their retail businesses. After transaction, Invalda INVL will hold additional 62,270,383 shares of the Bank which represents 9,39% of the Bank shareholding. The Bank will issue new shares to be acquired by the Invalda INVL group at EUR 0.645 per share (5% more than the Bank's share price on 22 November 2022 on the Nasdaq Vilnius). The transaction is expected to be completed within one year, subject to the necessary approvals from the banking competition supervisory authorities, the adoption of the necessary resolutions by the extraordinary shareholders' meetings of the Bank and Invalda INVL, and the fulfilment of the other conditions set out in the agreement. Following the completion of this and other planned share acquisition transactions announced, the Invalda INVL Group will increase its shareholding in the Bank to approximately 20%.

As at 30 September 2023, the Bank had 19,605 shareholders (as at 31 December 2022: 18,524).

Dividends:

On 31 March 2023 ordinary general meeting of shareholders made a decision to pay EUR 0.0265 (i.e. 9.1%) dividends per one ordinary registered share with EUR 0.29 nominal value each.

On 30 March 2022 ordinary general meeting of shareholders made a decision to pay EUR 0.034 (i.e. 11.7%) dividends per one ordinary registered share with EUR 0.29 nominal value each.

Reserve for acquisition of own shares:

On 28 March 2019 ordinary general meeting of shareholders made a decision to form a reserve for acquisition of own shares from retained earnings. On 30 March 2022 ordinary general meeting of shareholders made a decision to increase reserve for acquisition of own shares by EUR 10,000 thousand. The reserve can be used for two purposes – to preserve the market price of Bank's shares and to acquire the shares that will be granted to Group's employees as part of variable remuneration. As of 30 September 2023 carrying value of reserve for own shares acquisition amounts to EUR 20,000 thousand (as at 31 December 2022: EUR 20,000 thousand).

NOTE 6
CAPITAL (CONTINUED)

During nine months period ended 30 September 2023 the Bank acquired 2,491 thousand units of own shares for EUR 1,868 thousand. The acquired shares were granted to the employees of the Bank and its subsidiaries as a deferred part of variable remuneration for 2019. As of 30 September 2023 the Bank held no own shares.

During twelve months period ended 31 December 2022 the Bank acquired 2,105 thousand units of own shares for EUR 1,557 thousand. Part of acquired shares were granted to the employees of the Bank and its subsidiaries as a deferred part of variable remuneration for 2018. As of 31 December 2022 the Bank held no own shares.

Other equity:

Other equity consists of amount that corresponds to the obligation to present Bank‘s shares to Group‘s employees as part of variable remuneration.

The Group’s remuneration policy prescribes two main elements of remuneration – fixed remuneration and variable remuneration, and various additional benefits. Employees whose professional activities and/or decisions might have a significant impact on the risk accepted by the Group, receive deferred variable remuneration. The remuneration amounts are accrued as staff expenses in income statement. Until 2018, Group’s incentive scheme included deferred payments in shares and cash of not less than 40% of variable remuneration being paid in equal instalments during three-year period. From 2019 under the Group's incentive scheme employees whose professional activities and/or decisions may have a significant impact on the risk assumed be the Group receive 50% of the annual long-term incentive program in cash and 50% in form of Bank's shares options executable after 3 years. From 2023 Bank's shares options are executable after 4-5 years. The number of share options is based on the currency value of the achieved results divided by the weighted average price at which the Bank's shares are traded on Nasdaq Vilnius during the period of five months prior the approval of renumeration. Each option is convertible into one ordinary share.

The Group has assessed fair value of shares option by the Black-Scholes model which is attributable to Level 3 in fair value hierarchy. The model inputs include:

- For the option granted 31 March 2023: grant date (31 March 2023), expiry days (9 April 2027 and 14 April 2028), share price 0.747 on grant day, exercise price 0.65, expected price volatility of the bank's shares 26%, risk free interest rates - 5% ir 2.3%;
- For the option granted 30 March 2022: grant date (30 March 2022), expiry day (11 April 2025), share price 0.656 on grant day, exercise price 0.588, expected price volatility of the bank's shares 28%, risk free interest rate - 0.1%;
- For the option granted 31 March 2021: grant date (31 March 2021), expiry day (12 April 2024), share price 0.538 on grant day, exercise price 0.498, expected price volatility of the bank's shares 25%, risk free interest rate - 0.1%;

The value of the option is included in other equity line in the statement of financial position. Other equity consists of:

No options were forfeited or expired during periods ended 30 September 2023 and 31 December 2022. During nine months period ended 30 September 2023 2,491 thousand units of share options were exercised for benefit of Group’s defined employees (for benefit of Bank’s defined employees – 2,165 thousand units) on exercise date at weighted average share price of 0.67 EUR. Weighted average option exercise price was 0 EUR.

Basic earnings per share:

Basic earnings per share are calculated by dividing the net profit for the period by the weighted average number of ordinary shares in issue during the period. There were no potential ordinary shares at 30 September 2023 and 30 September 2022, therefore the Group had no dilutive potential ordinary shares and diluted earnings per share are equal to basic earnings per share.

The number of shares in issue for the year ended 30 September and 30 September 2022 was 600,726 thousand. Weighted average number of shares in issue for the period ended 30 September 2023 was 600,194 thousand (30 September 2022: 599,840 thousand).

As environmental factors changed, assumptions and estimates used in probability of default (PD) estimations were changed. The scenarios used to calculate PDs were based on the latest available economic change scenarios published by institutions, Group's management assigned judgement-based probabilities to these scenarios. It should be noted that economic forecasts used took into account ongoing Russia's invasion to Ukraine but without knowing result scenario of it significant uncertainties existed on how it will impact further global, country and sectors development trends. Due to such circumstances there is a significant probability that actual results may deviate from the estimated.

LIQUIDITY, MARKET AND OPERATIONAL RISKS

Liquidity risk

Liquidity risk means the risk that the Bank is unable to meet its financial obligations in time or that it will not manage to receive financial resources during a short time by borrowing or selling the assets.

Liquidity risk management process

The liquidity risk management depends on the Bank's ability to cover the cash shortage by borrowing from the market and the liquidity of the market itself. Liquidity risk management is regulated by the Procedures for Liquidity Risk Management approved by the Board of the Bank. The management of the current and non-current liquidity risk is distinguished in the mentioned procedures. The current liquidity is based on the control of the incoming and outgoing cash flow. The non-current liquidity is managed on the limit system basis.

No Bank‘s liquidity situation deterioration was observed during Covid-19 epidemic situation.

Tables below present the assets and liabilities according to their remaining maturity defined in the agreements. However, actual maturity of the particular types of assets and liabilities may be longer as, for example a portion of loans and deposits is extended and thus the real repayment terms of short-term loans and demand deposits move forward.

Operational risk

Operational risk is the risk to incur losses due to inadequate internal control processes or incorrect process implementation, errors and(or) illegal actions of employees, malfunctioning of information systems or external incidents. Unlike other risks (credit, market, liquidity), which are not being taken on purposefully, with anticipation of benefits, operational risk occurs naturally in the course of Bank's business.

Enhancing the risk culture in the organisation is one of the Bank's priorities this year. For this purpose, e-training on the subject of operational risk was prepared for all employees of the Bank. The Bank continues to improve its systems designed for management of operational and reputation risks and recording of events at the Bank and its subsidiaries. Transfer of the register of the operational risk events from the Administrative Information System (AIS) to the Service Bank is planned this year.

At the end of 2022, procedures for procurement of outsourced services were updated, with the focus on improvement of the processes for monitoring the procurement and the services at the Bank. This year, a presentation on the subject of the outsourced services management was held for the employees of the Bank.

In 2023, the procedure for managing continuity of the Bank's activities was updated and process coordination in the continuity planning and management area at the Group's level was defined. At present, preparations for a comprehensive testing of the continuity plans, scheduled for this year, is underway.

In March 2022, a working group for the monitoring and assessment of the risks arising for the Bank due to Russia's military actions in Ukraine was formed in the Bank.

NOTE 14
FINANCIAL ASSETS AND LIABILITIES MEASURED AT FAIR VALUE

Types of inputs used in valuation techniques determine the following fair value hierarchy:

- Level I – Quoted prices (unadjusted) or public price quotations in active markets for identical assets or liabilities;
- Level II – Inputs other than quoted prices included within Level I that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices);
- Level III – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

During the nine months period ended 30 September 2023, the process of fair value measurement did not change significantly as compared to the process described in the annual financial statements for the year 2022. For the valuation of financial assets and liabilities purposes, estimates, valuation techniques and inputs used to develop those measurements have not changed significantly during the nine months period ended 30 September 2023.

(All amounts are in EUR thousand, unless otherwise stated)

The present additional information of Šiaulių Bankas AB (hereinafter — the Bank) covers the period 01 January 2023 to 30 September 2023.

The description of alternative performance indicators is available on the Bank's website at:

Homepage › Bank Investors › Financial Information › Alternative Performance Measures

ACTIVITY RESULTS

- Šiaulių bankas Group earned an unaudited net profit of EUR 24.2 million in Q3 and EUR 65.7 million in the first three quarters of this year
- Maximum amount of dividends for the year 2023 will not exceed 43% of the annual profit of the Group
- The loan portfolio increased by 10% since the beginning of the year to almost EUR 2.9 billion
- SB Modernizavimo Fondas will finance the modernisation of 395 multi-apartment buildings for EUR 275 million
- Deposits from individuals and businesses are growing rapidly, with the deposit portfolio growing by 8% since the beginning of the year to over EUR 3 billion
- The merger of the retail businesses of the Bank and Invalda INVL is expected to be completed on 1 December

“Another quarter dictated by economic volatility and rising interest rates. We have continued our strategy of maintaining the highest deposit rates among the major banks and are now able to offer customers interest rates of up to 4.25% p.a. on irrevocable fixed-term deposits. Rising interest rates have also led to the popularity of an alternative form of financing – bonds. The Bank’s originated bonds are an opportunity for local businesses to combine financing methods to borrow more and for investors to invest.

At the end of the year, we are likely to maintain the same momentum and successfully complete the transaction with Invalda INVL on the merger of retail businesses, after which Šiaulių bankas Group will manage second and third tier pension and investment funds in Lithuania and will expand its life insurance business in the Baltic states. In parallel with the transaction and the Bank’s growth, the strategy is being reviewed and we expect to present it early next year", said Vytautas Sinius, CEO of Šiaulių Bankas.

Overview of Key Performance Indicators

Šiaulių bankas Group earned an unaudited net profit of EUR 65.7 million in the first three quarters of this year (32% more than a year ago, when the profit amounted to EUR 49.9 million). Profit for the third quarter was EUR 24.2 million, up 33% from EUR 18.1 million last year.

Operating income growth in the first nine months of the year compared to the same period in 2022: net interest income grew by 55% to EUR 116.1 million, while net income from service and commission grew by 4% to EUR 14.6 million.

With the economic situation remaining uncertain, the Bank made additional provisions for loans and other assets of EUR 3.1 million during the quarter, mainly due to the risk assessment of individual exposures. Provisions for the first nine months of the year amount to EUR 8.5 million, compared to EUR 2.4 million year-on-year. At the end of September, the cost of risk (CoR) stood at 0.4% (0.2% in the same period last year).

The Bank Group’s return on equity was 18.9% (16.3% last year), while the cost/income ratio (excluding the impact of SB Draudimas’ customer portfolio) fell to 34.4% at the end of September (40.0% in the same period last year). The capital and liquidity position remains sustainable and prudential ratios are being met by a wide margin, with a liquidity coverage ratio (LCR) of 183%* and a capital adequacy ratio (CAR) of 21.3%*.

To include part of the interim profit for the first half of 2023 in the own capital, it was necessary for the Bank’s Management Board to take a decision on the maximum dividend payment ratio for 2023. Accordingly, the Management Board, assessing the operating environment, the Bank's results for the first three quarters of 2023 decided that the amount of dividends for the year 2023, which will be submitted to the AGM of shareholders of the Bank by the Management Board for the approval, will not exceed 43% of the annual profit of the Group for year 2023.

The final dividend payment ratio for 2023, considering the factual and forecast circumstances, will be decided, and submitted to the AGM of shareholders of the Bank by the Management Board in March 2024.

Overview of Business Segments

Corporate and Private Clients Financing

Portfolios of all financing segments grew in 9 months, while the Bank Group’s total loan and leasing portfolio grew by 4% (EUR 104 million) during the quarter and by 10% (EUR 261 million) since the beginning of the year to reach EUR 2.9 billion. However, against the backdrop of a turbulent outlook for the overall economy and the high cost of borrowing, new contract signings fell, reaching EUR 0.3 billion in the quarter and EUR 1 billion since the beginning of the year, down 7% year-on-year.

With the demand for business finance falling and expectations remaining cautious, the number of business loans signed this year is almost 5% lower than in the same period last year, at EUR 587 million. The corporate finance portfolio grew by 2% (EUR 24 million) during the quarter and by 6% (EUR 87 million) since the beginning of the year to EUR 1.47 billion.

The European Central Bank's monetary policy is leading to a slowing property market and falling demand for mortgages. Contracts worth EUR 38 million were signed in the third quarter and EUR 134 million since the beginning of the year, 32% less than in the same period last year. The housing loan portfolio grew by 3% (EUR 22 million) during the quarter and by 14% (EUR 90 million) since the beginning of the year to EUR 0.75 billion.

Despite the extremely competitive consumer finance market, new sales volumes managed to grow both in the third quarter and throughout the year. The number of consumer credit agreements signed this year is 17% higher than in the same period last year, amounting to EUR 170 million. The consumer finance portfolio grew by 7% in the third quarter and by 26% from the beginning of the year, reaching EUR 288 million.

The volume of applications and contracts for financing energy efficiency projects remained high: in the third quarter, SB Modernizavimo Fondas concluded contracts for the modernisation of multi-apartment buildings for EUR 56 million, and since the start of its operations, the Fund has signed contracts for the full amount of EUR 275 million raised by Lithuanian and foreign investors. The Fund will improve the living conditions of residents of 395 multi-apartment buildings. As the Bank continues to focus on the rapid renovation of Lithuania's multi-apartment buildings, work has already started on the establishment of a new multi-apartment building modernisation fund.

Daily banking

During the third quarter, 7.4 thousand new private and corporate customers started using the Bank's services, and more than 23.5 thousand since the beginning of the year. As the number of new customers grows, so does the number of people using the service plans, which exceeded 190 thousand. The growth rate of credit cards increased by 6% during the quarter and by 34% during the year (to 35 thousand), while the total number of payment cards issued fell to 172 thousand.

A major focus is on improving the Bank's internet bank and mobile app. During the third quarter of the year, important changes were introduced (e.g. login with a national identification number instead of a password) and the app was updated for customers using iOS and Android.

Saving and Investing

With the Bank paying attractive interest rates for savings solutions, both individuals and companies are actively choosing the Bank's fixed-term deposit products. Currently, almost 47% of customers' funds with the Bank are in fixed-term deposits (EUR 1.4 billion, up more than 50% from the beginning of the year). The total customer deposit portfolio has grown by 8% since the beginning of the year to over EUR 3 billion.

The high inflationary environment continues to encourage customers to direct their savings into the Bank's investment products, mainly Lithuanian corporate bonds. During the quarter, the Bank arranged 11 corporate bond placements in amount of more than EUR 40 million. The value of customer investments held with the Bank has been growing steadily, reaching EUR 1.8 billion, double the amount at the beginning of the year.

Merger of retail businesses with Invalda INVL

The merger of the retail businesses of the Bank and Invalda INVL is progressing smoothly and is expected to be completed on 1 December.

The Bank's asset management company SB Asset Management obtained a management company licence in the third quarter. After the closing date, the company would take over the pension fund and retail investment fund management business for further development. SB Draudimas, the Bank's insurance company, has set up branches in Latvia and Estonia to properly prepare for the transfer of INVL Life insurance business to Latvia and Estonia.

During the quarter, the Bank also implemented organisational structural changes to ensure the smoothest possible merger, business continuity and preparation for the post-closing organisation of work. The new structure will allow for a clearer division of functions and responsibilities between corporate customer, private customer, and investment management business lines. This transformation is aimed as well at enhancing efficiency and improving overall performance.

REGARDING EXTERNAL ENVIRONMENT FACTORS

The Bank monitors the tense geopolitical situation in order to properly and timely assess and identify the potential impact of Russia's invasion of Ukraine on the Bank's operations and the quality of its portfolio due to the risks it poses to clients. The Bank has set up a special Working Group to assess the situation. The Bank has no operations in Russia, Belarus or Ukraine and does not have significant direct exposures in these countries. The Bank considers the secondary risk of direct insolvency of clients operating in Lithuania due to the geopolitical situation to be low: the Bank's largest clients are aware of the threats, the number of clients dependent on business relations with Ukraine and Russia is low, and clients with business relations in the countries mentioned above are reducing their dependence of their income on business transactions. To identify in a timely manner a potential increase in the risk of its clients, the Bank applies the procedures set out in the Bank's internal regulations, records Early Warning Indicators (EWI) for the impact of the geopolitical situation on the clients that have a moderate or greater dependence on the aforementioned countries through their supply or sales chains, or through their shareholding structure, and, in the event of a potentially significant risk, puts the client on the Watch List and implements enhanced monitoring for these clients, and approves action plans for the mitigation of risk. The greatest uncertainties and potential negative impacts arise from tertiary effects, i.e., the impact of Russia's invasion of Ukraine on the overall state of the economy. The Bank uses scenario assessments and stress testing to assess these impacts. These assessments indicate that the Bank's capital position is strong and that the Bank would be able to withstand significant shocks related to economic downturns.

The increased monitoring is not limited to credit risk, but also includes a stronger monitoring of the bank's liquidity position (except for the increased cash withdrawals a few days after the start of the invasion, there were no negative trends related to the invasion), increased focus on business continuity and IT security (business continuity plans have been updated with a number of additional scenarios, cybersecurity status is constantly being monitored, additional cyber-protection measures have been implemented, and testing of measures and plans is ongoing). Also, due to the rapidly changing situation and the introduction of new sanction packages, the processes and procedures for complying with the sanctions for clients and payments are under considerable scrutiny, which may in some cases lead to longer process time.

The Russian invasion of Ukraine may further contribute to increased market volatility. The Bank has no direct investments (securities or other financial instruments) in Russia, Belarus or Ukraine. The Bank has no or close to zero open currency exposure in these countries.

The Bank is closely monitoring the situation regarding problems of some US and Swiss banks. The Bank has no direct positions in these credit institutions and does not notice any material second or third order effects to Bank's activities.

RATINGS

On June 7 2023 the international rating agency Moody's Investor Service has upgraded Šiaulių Bankas long-term deposit ratings from Baa2 to Baa1. The outlook on the long-term deposit ratings is affirmed as stable. This is the highest rating in the bank's history. In its statement, Moody's noted that the key driver for the upgrade of the ratings is the continued strengthening of the bank's fundamentals, improving profitability, strong levels of capitalisation and adequate liquidity profile, with problem loans to gross loans ratio improving to below 3%. Moody's believes that despite the unfavourable macroeconomic situation, fundamentals of Šiaulių Bankas will remain strong during the next 12 to 18 months, and that the bank will be able to manage its asset quality and capitalisation ratios, and that its liquidity position will remain stable.

Moody's has also upgraded the long-term Counterparty Risk Ratings from Baa1 to A3. The long-term Counterparty Risk Assessments (CR Assessments) were upgraded from Baa1(cr) to A3(cr). Moody's has affirmed short-term deposit ratings of Šiaulių Bankas at P-2 and the short-term CR Assessments at P-2(cr). The Baseline Credit Assessment has also been upgraded from Ba1 to Baa3.

COMPLIANCE WITH PRUDENTIAL REQUIREMENTS

Income was growing faster than its expenses which led to the high efficiency of the performance. Capital and liquidity position remain robust - prudential requirements are implemented with adequate reserve. According to the data as of 30 June 2023 the Bank complied with all the prudential requirements set out by the supervisory authority.

At the end of Q3 2023 MREL requirement at Financial group level approved in February, 2023 were effective, including the following MREL requirements that shall be met by 1 January 2024:

- The minimum requirement for own funds and eligible liabilities of the resolution entity with which the Financial group shall comply is 21.49% of total risk exposure (MREL-TREA) and 7.16% of leverage ratio exposure (MREL-LRE);
- Subordinated instruments shall comprise 13.50% of total risk exposure (MREL-TREA, subordinated) and 5.99% of leverage ratio exposures (MREL-LRE, subordinated).

To ensure a linear build-up of own funds and eligible liabilities towards the requirements the supervisory authorities set intermediate targets. For 30 September 2023, such targets comprise MREL-TREA of 15.43% and MREL-LRE of 5.89%, subordinated MREL-TREA of 13.50% and subordinated MREL-LRE of 5.79%. The levels of MREL requirements are revised by the supervisory authorities of the bank each year.

The MREL targets for Financial group can be summarised as follows:

	01/01/2023	01/01/2024
	(intermediate target)	(requirement)
MREL-TREA	15.43%	21.49%
MREL-LRE	5.89%	7.16%
MREL-TREA, subordinated	13.50%	13.50%
MREL-LRE, subordinated	5.79%	5.99%

In November 2022, in the international financial markets, Šiaulių Bankas AB successfully supplemented the 4-year issue made in 2021 with an additional nominal value of EUR 85 million. Before this addition, this issue amounted to EUR 75 million, now it is EUR 160 million. The bond issue was aimed at meeting future MREL requirements set by the supervisory authorities of the bank. In June 2023, the Bank successfully placed a 10-year subordinated bond issue of EUR 50 million in the international financial markets, which attracted more investor attention than expected. The funds raised will help the Bank to maintain its lending volumes to Lithuanian businesses, to achieve an efficient capital structure, to meet the requirements of the supervisory authority and to maintain the continuity of its dividend policy.

DIVIDENDS

In 2018, the Supervisory Council approved the dividend policy. Carrying out its activities and planning the capital the Bank seeks to ensure a competitive return on investment through dividends and increasing stock value. The Bank shall pay dividends on two assumptions - when external and internal capital and liquidity requirements will be sustained, and the level of capital after dividends will remain sufficient to carry out all approved investment and development plans and other capital-intensive activities. Taking into account the above-mentioned principles and assumptions, the Bank shall seek to allocate at least 25 per cent of the earned annual profit to dividends.

The General Meeting of Shareholders held on 31 March 2023 decided on the allocation of the Bank's profits. The profit allocation included EUR 15.9 million for dividends, representing 25% of the net profit for 2022. Dividends of EUR 0.0265 per ordinary registered share with a nominal value of EUR 0.29.
