GENERAL INFORMATION

Šiaulių Bankas AB was registered as a public company in the Enterprise Register of the Republic of Lithuania on 4 February 1992. The Bank is licensed by the Bank of Lithuania to perform all banking operations provided for in the Law on Commercial Banks of the Republic of Lithuania and the Statute of the Bank, except for operations with precious metals.

The Head Office of the Bank is located in Šiauliai, Tilžės str. 149, LT-76348. As of March 31 th 2012 the Bank had 487 employees (31 December 2011: 484). As of March 31 th 2012 the Group had 551 employees (31 December 2011: 559 employees).

The Bank's shares are listed on the Official List of the National Stock Exchange of Lithuania (NSEL).

The Bank had the following subsidiaries:

- 1. Šiaulių Banko Lizingas UAB (hereinafter SB Lizingas, finance and operating lease activities),
- 2. Šiaulių Banko Investicijų Valdymas UAB (hereinafter SB Investicijų Valdymas, investment management activities),
- 3. Šiaulių Banko Turto Fondas UAB (hereinafter SB Turto Fondas, real estate management activities),
- 4. Minera UAB (hereinafter Minera, real estate management activities),
- 5. SBTF UAB (hereinafter SBTF, real estate management activities).

The Bank had the following associated company:

Pavasaris UAB - development of the area of multi-apartment residential houses

The financial statements of the Group and the Bank have been prepared in accordance with International Financial Reporting Standards as adopted by the EU. The financial statements have been prepared under the historical cost convention as modified for the revaluation of available-for-sale investment securities, financial assets and financial liabilities held for trading and all derivative financial instruments.

The preparation of financial statements in conformity with International Financial Reporting Standards require the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of current event and actions, actual results ultimately may differ from those estimates.

These financial statements combine the consolidated financial statements for the Group and stand-alone financial statements of the Bank. Such format of reporting was adopted to ensure consistency of presentation with the format prescribed by the Bank of Lithuania and applied for statutory reporting.

Amounts shown in these financial statements are presented in the local currency, Litas (LTL). Since 2 February 2002 the exchange rate of the litas was pegged to the euro at a rate of LTL 3.4528 = EUR 1.

Financial risk management

The Group analyses, evaluates, accepts and manages the risk or combination of risks it is exposed to. Risk management at the Group aims at ensuring a sufficient return on equity following the conservative risk management policy. While implementing an advanced risk management policy the Group focuses not only on minimising potential risk but also on improving pricing and achieving efficient capital allocation.

The Risk Management Policy approved by the Bank Board as well as by the procedures to manage different types of risks prepared on its basis ensures the integrity of the risk management process in the Group.

The most important types of risk the Group is exposed to are credit risk, market risk, liquidity risk, concentration risk and operational risk. Market risk includes currency risk, interest rate and equity price risk. Other types of risk are considered immaterial by the Group and, therefore, are not assessed.

In order to avoid a conflict of interest the Bank's subdivisions that implement risk management functions are separated from those subdivisions the direct activities of which are connected with the up rise of various types of banking risks.

(all amounts are in LTL thousand, unless otherwise stated)

(all amounts are in LTL thousand, unless otherwise stated)

NOTE 4 LOANS TO CUSTOMERS

Credit risk is defined as the risk for the Group to incur losses due to the Group's customers' failure to fulfil their financial obligations towards the Group. Credit exposures arise principally in lending activities and it is the most significant risk in the Group's banking activities. There is also credit risk in investment activities that arise from debt securities and in the Group's asset portfolio as well as in the off-balance sheet financial instruments, such as loan commitments, guarantees and letters of credit.

The Bank regularly reviews its credit risk management policies which include lending policies, credit risk limit control, other credit risk mitigation measures as well as the internal control and internal audit of credit risk management.

The Bank takes risks only in the fields, which are well known to it and where it has long-term experience, trying to avoid excessive risk in transactions that can have negative influence to the big portion of shareholders' equity but seeks the sufficient profitability which, in terms of increasing competition, would ensure the stable Bank's position in the market and would increase the Bank's value. In assessing exposure to credit risk, the Bank adheres to the principle of prudence.

The aim of the Bank's credit risk management policy is to ensure that the conflict between interests of staff or structural units is avoided. With respect to provision of credits to clients, the principle stating that profit should not be earned at the expense of excessive credit risk is observed.

Maximum exposure to credit risk before collateral held or other credit enhancements

Loans and advances neither past due not impaired are loans which are not impaired and payments of which are not past due. Past due but not impaired loans are loans for which principal or interest is past due but no allowance for impairment is

Impaired loan - is a loan to which a loss event is recognized and allowance for impairment is made

The list of loss events:

recognized.

- 1) significant financial difficulties of the debtor or issuer, i.e. the borrower's financial status is evaluated as poor or bad;
- 2) violation of the loan agreement (non-payment of the periodic loan payments (the part of the loan or interest)) for more than 30 days;
- 3) the loan is being recovered;
- 4) funds granted to the borrower are used not according to the loan purpose and the implementation terms of investment project are violated or decrease in collateral value, when repayment terms of the evaluated loans directly depend on the value of the object of security measure;
- 5) third parties related to the borrower do not fulfil their obligations, which impacts the borrower's ability to fulfil its financial obligations;
- 6) other loss events (termination or cancellation of the licence validity of the borrower or issuer engaged in licensed activity; the death of the borrower or issuer).

NOTE 13 SHARE CAPITAL

As of 31 March 2012 the Bank's share capital comprised 234 857 533 ordinary registered shares with par value of LTL 1 each. Authorized capital was registered in the Register of Legal Entities on 4 August 2011, by additional contributions in the amount of LTL 30 million .

Shareholders including the European Bank for Reconstruction and Development, Trade-house Aiva UAB, Mintaka UAB, Company Group Alita AB, Algirdas Butkus, Gintaras Kateiva, Arvydas Salda, Kastytis Jonas Vyšniauskas, Sigitas Baguckas, Vigintas Butkus, Vytautas Junevičius, Audrius Žiugžda, Daiva Kiburienė, Jonas Bartkus, Vita Adomaitytė, Vytautas Sinius and Donatas Savickas comprise the group of shareholders, whose votes are calculated jointly. As of 31 March 2012, this group possessed 43.31 percent of the authorised capital and votes of the Bank.

As of 31 March 2012, the Bank had 3 812 shareholders (31 December 2011 - 3 805).

| Shareholder | Share of votes held together with the related persons, % |
|--|---|
| The European Bank for Reconstruction and Development (EBRD); | 19,57 |
| Gintaras Kateiva | 6,24 |

Share premium

The share premium represents the difference between the issue price and nominal value of the shares issued by the Bank. Share premium can be used to increase the Bank's authorised share capital.

Reserve capital

The reserve capital is formed from the Bank's profit and its purpose is to ensure the financial stability of the Bank. The shareholders may decide to use the reserve capital to cover losses incurred.

Statutory reserve

According to the Law of the Republic of Lithuania on Banks, allocations to the statutory reserve shall be compulsory and may not be less than 1/20 of the profit available for appropriation. The statutory reserve may, by a decision of the annual or extraordinary general meeting of the shareholders, be used only to cover losses of the activities.

Dividends

In 2011, 2012 the annual general meeting of shareholders decided to not to pay dividends.

General reserve to cover possible losses in assets

This reserve is formed from the Bank's profit or additional contributions of shareholders. The purpose of reserve is to cover losses incurred because of the risk related to the major activity of the Bank.

(all amounts are in LTL thousand, unless otherwise stated)

Earnings per share

Basic earnings per share is calculated by dividing the net profit for the period by the weighted average number of ordinary shares in issue during the period. The Group and the Bank have no dilutive potential ordinary shares and therefore diluted earnings per share are the same as basic earnings per share.

NOTE 18 CAPITAL MANAGEMENT

The capital of the Group is calculated and allocated for the risk coverage following the General Regulations for the Calculation of Capital Adequacy approved by the Bank of Lithuania Board. The Group's objectives when managing capital are as follows:

- 1) to comply with the capital requirements set by the Bank of Lithuania as well as the higher target capital requirements set by the major shareholder,
- 2) to safeguard the Bank's and the Group's ability to continue as a going concern so that it can provide returns for shareholders and benefits for other stakeholders,
- 3) to support the development of the Group's business with the help of the strong capital base.

Capital adequacy and the use of the regulatory capital are monitored on a daily basis and information regarding capital adequacy is submitted to the supervising authority quarterly in accordance with the Bank of Lithuania requirements.

The Bank of Lithuania has set the following minimum capital requirements:

- 1) minimum level of capital held must be no less than 5 mill EUR,
- 2) minimum capital adequacy ratio, calculated as the regulatory capital to the risk-weighted assets, must be no less than 8%. Capital adequacy (solvency) ratio is calculated as a ratio of the capital of the Bank and the capital required to cover credit, trading book and operating risks multiplied by 0.08 and presented in percentage points.

Additional capital need for credit, operational, market and liquidity risk is subject to the regular stress-testing and Internal Capital Adequacy Assessment processing.

(all amounts are in LTL thousand, unless otherwise stated)

The Group's regulatory capital is divided into two tiers:

- 1) tier 1 capital consists of the share capital, share premium, reserve capital, retained earnings of the previous financial year and less the intangible assets,
- 2) tier 2 capital consists of the revaluation reserves of the fixed and financial assets, other reserves.

The regulatory capital is calculated as the sum of the previously mentioned tier 1 and tier 2 capital less the investments in other credit or financial institution.

The risk-weighted assets are measured by means of nine risk weights classified according to the nature of each assets and counterpart, taking into account collaterals and guarantees eligible for risk mitigation. A similar treatment with some adjustments is adopted for the off-balance sheet exposures. Capital requirements for operational risk are calculated using the Basic Indicator Approach.

The table below summarizes the composition of regulatory capital and the ratios of the Bank and Group as of March 31 th 2012 and of December 31 st 2011. During those two years, the Group complied with capital requirements to which it is subject.

| | | 31-03-2012 | | 31-12-2011 | |

NOTE 19 LIQUIDITY

Liquidity risk means the risk that the Bank is unable to meet its financial obligations in time or that it will not manage to receive financial resources during a short time by borrowing or selling the assets.

The liquidity risk management

The liquidity risk management depends on the Bank's ability to cover the cash shortage by borrowing from the market; and the liquidity of the market itself. While managing the liquidity risk the relatively small size of the Bank has both positive and negative features. On the one part, in case of liquidity problems, the demand for total funds is rather small in terms of banking system, therefore, they are solved easily. On the other part, in case of liquidity problems the Bank's ability to borrow from the market may decrease significantly. Due to that fact the Bank possesses a significant Debt Securities Portfolio, which is of high liquidity.

The liquidity risk management is regulated by the Liquidity Risk Management Procedures approved by the Board of the Bank. The management of the current and non-current liquidity risk is distinguished in the mentioned procedures. The current liquidity is based on the control of the incoming and outgoing cash flow. The non-current liquidity is managed on the limit system basis.

As of March 31 th 2012 the above Group's ratio was 36,00 per cent (31-12-2011 - 37,26 per cent), and the Bank's – 37,49 per cent (31-12-2011 – 38,36 per cent.).

The tables below disclose the assets and liabilities as of March 31 st 2011 according to their remaining maturity defined in the agreements. However, the real maturity of the particular types of assets and liabilities may be longer as, for example a portion of loans and deposits is extended and thus the real repayment terms of short-term loans and demand deposits move forward

The structure of the Group's liabilities by maturity as of March 31 th 2012 was as follows.:

| | Demand | up to 1 month | 1 to 3 months | 3 to 6 months | 6 to 12 months | 1 to 3 years | more than 3 years | maturity undefinited | Total: |
|--|-----------|---------------|---------------|---------------|-------------------|--------------|-------------------|-------------------------|-----------|

NOTE 20 MARKET RISK

The Group takes on exposure to market risk, which means the risk for the Bank to incur losses due to the adverse fluctuations in the market parameters such as currency exchange rates (foreign currency risk), interest rates (interest rate risk) or equities prices (equity risk). The most significant market risk for a Group is interest rate risk while other market risks are of lower significance.

Foreign exchange risk

The foreign exchange risk management is regulated by the Procedures for Foreign Currency Risk Management. They include the list of types of sale and purchase transactions executed by the Group. Also they establish principles which help the Group to minimize the exposure to foreign exchange risk. The Group does not carry out speculative FX operations expecting to gain from favourable changes in currency exchange. The Bank's Board approves and reviews on a regular basis the maximum limits for open currency positions for the Bank's branches, subsidiaries and the Bank itself. The established limits are lower than those allowed by the Bank of Lithuania. The Bank's Treasury Department is responsible for the Group's compliance with the Procedures for Foreign Currency Risk Management.

The Group and the Bank monitors the foreign currency risk by calculating open currency position. Open currency position (OCP) is equal to assets in the balance sheet and off-balance sheet less balance sheet and off-balance sheet liabilities in a single currency. There are two types of OCP, i.e. long and short. The Bank also calculates Total open position (TOP), which is the higher of the separately added short and long positions. As of March 31 th 2012 the TOP to capital ratio was: Group's -0.630% (31-12-2011: 0.50%), Bank's -0.63% (31-12-2011: 0.50%).

Sensitivity of foreign exchange risk

Foreign exchange (FX) risk is limited by amounts of open FX positions. For calculation of sensitivity to FX risk all exposures shall be converted into possible loss, i.e. open FX position is multiplied by possible FX rate change. The FX risk parameters for the Group (Bank) have been established in view of the maximum fluctuations of currency exchange rate in 2010 and prognosis that exchange rate fluctuations will remain similar in 2011. The Group does not evaluate FX risk on open EUR position as LTL is pegged to EUR at a fixed rate (see General information).

| Currency | Annual reasonable shift 2012 | Annual reasonable shift 2011 |
|------------------|------------------------------|------------------------------|
| USD | 7% | 7% |
| GBP | 4,5% | 4,5% |
| DKK | 0,5% | 0,5% |
| SEK | 3% | 3% |
| LVL | 1% | 1% |
| other currencies | 6,5% | 6,5% |

The following table presents Group (Bank) sensitivities of profit and loss and equity to reasonably possible changes in exchange rates applied at the balance sheet date, with all other variables held constant:

| | 3 | 31-03-2012 | 31-12-20 | | | |
|------------------|------------------|---------------------------|----------|--------|--|--|
| | Impact on profit | Impact on profit or loss, | | | | |
| | | equity | | equity | | |
| | Group | Bank | Group | Bank | | |
| USD | 110 | 110 | 6 | 6 | | |
| GBP | 13 | 13 | 1 | 1 | | |
| DKK | - | - | 1 | 1 | | |
| SEK | 16 | 16 | 13 | 13 | | |
| LVL | 4 | 4 | 2 | 2 | | |
| other currencies | 35 | 35 | 31 | 31 | | |
| Total: | 178 | 178 | 54 | 54 | | |

The presumable FX rate change creates acceptable impact on the Bank's profit and makes LTL 178 thousand in 2012 (2011: LTL 54 thousand) and the Group's annual profit and makes LTL 178 thousand in 2012 (2011: LTL 54 thousand) higher/lower impact on profit.

(all amounts are in LTL thousand, unless otherwise stated)

The Group's open positions of prevailing currencies as of March 31 th 2012 were as follow:

| | USD | Others currencies | Total currencies: | EUR | TLT | Total: |

| Net open position | (82) | 1 356 | 1 274 | 87 329 | (88 605) | (2) |

Interest rate risk

An interest rate risk is a risk to incur losses because of the mismatch of re-evaluation possibility between the Bank's assets and liabilities. The risk management is regulated by the Procedures for Interest Rate Risk Management which establish methods of risk measurement and set up measures for risk management. These procedures define that:

- > the Bank observes the principle to avoid the speculation with future interest rates;
- > the risk size is evaluated applying a pattern of interest rate gap (GAP);
- > planning and Financial Risk Department provides the information on regular basis to Risk Management Committee about compliance with relative gap limits and submits proposals to the Bank's Board regarding the establishment of interest rates for credits and deposits.

Sensitivity of interest rate risk

Assessing the sensitivity of the Group's profit towards the change of interest rates, it has been assumed that interest is to change by 1 percentage point.

Operational risk

The goals of the Bank's operational risk management include such areas as implementation of the internal control, processes and measures of the operational risk mitigation, prevention of accidents and losses; proper identification and assessment of the operational risks; concentration of funds and time on the establishment and management of the major operational risk sources in every area of the Bank's activity; proper arrangement of the internal control environment and monitoring constantly reviewing the applied methods and learning from the past.

Operational risk management system at the Bank covers all the areas of banking activities: work with cash (cash values), investment services (deposits, investment and pension funds), account payments (bank accounts, direct debit, fee collection), e-banking (SB linija, SMS bank, payment card), credits (credits, factoring, guarantees and documentary settlements), leasing, trading in foreign currency, etc.

The bank distinguishes a reputation risk as an operational risk sub-group. The reputation risk is the existing or foreseen risk, which might have a negative impact on the Bank's income and (or) capital with regard to unfavourable opinion about the Bank's reputation and which is made by the clients, parties of the agreement, shareholders and investors.

Considering the nature and scope of the banking activities, the following key sources of the operational risk are distinguished within the Bank:

- 1. Information systems (technical and software equipment, disorders in telecommunication systems, etc.)
- 2. Influence of human factors:
- 2.1. A suspected unintended error or action of an employee;
- 2.2. The bank's employees errors without establishing a motive of action;
- 2.3. Suspected illegal actions, fraud, deceit made by the bank's employees;
- 2.4. Illegal actions, fraud, deceit made by non-bank's employees.
- 3. Working conditions (violation of the safe working conditions, etc.)
- 4. The forces of nature.

In order to collect information about operational risk events, the Bank accumulates the historical data related to operational risk and losses caused by it. For this purpose the Operational Risk Event Registration procedure is approved by the Bank's Board.

To ensure continuity of the activities the Bank has approved the Activity Continuity Plan and Procedures for Provision of Banking Products, in case of the incident occurring in the Bank's Information Systems. According to the policies mentioned above the particular procedures and actions are taken in case of a contingency event and emergency cases seeking to minimize and avoid operational risks and loss of values if the daily activities of the Bank are disturbed.

The Bank's operational risk management system is supplemented by the Bank's Activity Continuity Plan and the Information Security and Emergency Management systems crated and installed by the Information technologies agency "Blue Bridge".

Referring to the scope of the Bank's activities and possibilities to take advantage of the historical data with regard to operational risk, the Bank has decided to apply a basic indicator approach indicated in the regulations for the Capital adequacy ratios.

Stress tests

Besides the regular assessment of the risks and the capital requirement calculation the Group also performs stress tests for the credit, liquidity, market (interest rate and currency), and operational risks. During this process it is determined if the Bank's capital is sufficient to cover the possible losses which may occur because of the financial status impairment. The stress testing is performed once a year in accordance with the requirements set by the Bank of Lithuania.

Review of the activities and key events over the reporting period

According to the unaudited data, the net profit earned by the Bank over the three months of 2012 comprises LTL 3,3 million, i.e. by 59 per cent better result in comparison with the last quarter of the year 2011. Unaudited net profit earned by the Bank Group over the first quarter of the current year reached almost LTL 3,5 million.

The number of the Bank's clients increased by almost 20 thou, i.e. up to 149 thou during the period between the end of the first quarter of 2011 and the end of March of the current year: the number of private clients increased by 15.2 per cent, the number of corporate customers – by 17.2 per cent respectively.

In comparison with the result of the first quarter of 2011, the operating income of the Bank throughout the period between January and March has increased by 50 per cent and reached LTL 17,4 million. The gains were mainly influenced by 51 per cent growth of the net interest income and by the same percentage increase of the net profit earned from the transactions in foreign currency. The first quarter of the year resulted in 5.5 per cent lower net service and commission fee – the Bank has earned almost LTL 1,8 million of the latter. The expenses of the Bank have increased by 23 per cent and comprised LTL 10 million in comparison with the first quarter of 2011. The ratio of cost to income has improved from 69.06 per cent to 56.27 in the course of the year. The Bank has been further paying much attention to the quality of the loan portfolio. Almost LTL 3,7 million of special provisions have been additionally formed over the first quarter of 2012. The assets of the Bank have grown by LTL 25 million, i.e. up to LTL 2,76 billion since the beginning of the year. Over the recent 12 months the assets have increased by LTL 265 million or by 10.7 per cent. At the end of March of this year the portfolio of granted loans comprised LTL 2,1 billion and was by 21 per cent bigger than at the end of the first quarter in 2011. This year over the period of the first three months the amount of loans granted to the clients has grown by 1.3 per cent (by LTL 26 million) while the loan portfolio of the banking sector has been declining. Moreover, the deposit portfolio has been rapidly growing over this three-month period – the amount of deposits trusted by the clients to the Bank has increased by 3.3 per cent up to LTL 1.96 billion. Comparing to the relative period in 2011 the amount of deposits with the Bank has increased by 10.5 (or by LTL 185,8 million). The Bank has increased its debt securities portfolio by 6 per cent up to LTL 371 million since the beginning of the year.

Actively expanding the e-banking services, the Bank has increased the clientele of "SB linija" by more than one third (37 per cent) - up to 67 thou over the year prior to March 31, 2012. More than 55 thou of payment cards have been issued by the Bank at the end of the first quarter of 2012, which is by 26.4 per cent more than a year ago.

The Bank's clients can take advantage of 270 ATMs located in 47 cities and towns of Lithuania including the joint network of ATMs.

• Since the beginning of 2012 the Bank cooperating with the credit bureau "Creditinfo" managing the system of the personal credit information "Manocreditinfo.lt" has enabled its clients to find out and independently observe their credit history, i.e. the current and past due payments to financial institutions, telecommunications, utility service companies, insurance agencies and to enterprises in other sectors in real time and free of charge.

(all amounts are in LTL thousand, unless otherwise stated)

- In February the Bank commemorated the 20th anniversary of its performance. The funds planned for the jubilee were donated to the social care centres, i.e. 70 centres taking care of old people received modern TV sets.
- In March the Faculty of Social Sciences of Siauliai University invited its alumni and partners to the meeting. After the event the Bank was nominated as "The Most Patriotic Employer of Siauliai" and "The Safest Working Place".
- In the General Meeting of Shareholders held on March 29, 2012 the shareholders of the Bank approved the financial statements of the Bank and the Bank Group for 2011, elected the audit agency, agreed with the distribution of the profit (loss) of 2011 and with the amendments of the Charter of the Bank, also, elected the new Supervisory Council of the Bank and decided to assigned the generated profit to strengthen the Bank.
